

RETAIL LIGHTING

CAFE ZEST

WITHIN HOUSE OF FRASER, MEADOWHALL SHOPPING CENTRE, SHEFFIELD

GAMMA
ILLUMINATION

PROJECT OVERVIEW

- The ambient lighting provided by 1000lm Great White TTX LED downlights with a 3000K colour temperature, created a cosy and inviting atmosphere in the café
- Xicato's high colour rendering properties intensified the vibrancy of the food on display
- Reduced energy bills were achieved by replacing the existing 50W low voltage fittings with 22W Xicato LED modules
- Low maintenance costs achieved with a product life of 50,000 hours compared to the 4,000 hours offered by the old fittings

GAMMA
ILLUMINATION

"House of Fraser had first-hand experience of the benefits that using the correct lighting can bring to a retail environment and Gamma has played a key role in helping us to achieve this."

Head of Engineering and Maintenance, House of Fraser
